

APPLICATION FORM 1: Request to qualify for municipality contribution: higher hourly rate for parents who are eligible for childcare income tax refunds

In 2024, the municipality will subsidize part of the hourly rate for parents who qualify for childcare tax refunds and who have an estimated joint income lower than € 64,305.00. If this applies to you, it is necessary for you to complete and return this form to your toddler playgroup organization (parents in the municipal arrangements are automatically eligible for this and do not have to submit this form).
