## Conditions transport to sports clubs in out-of-school care time

Soest

The arrangement for transport by Bink to the sports clubs is as follows:

- Bink only provides transport to the training sessions. After the training you pick up your child yourself at the sports club. During school holidays, winter and summer breaks, we do not arrange transport.
- As soon as you know what day and time your child will be training, please fill in the online application form for transport on our website.
- The sports club will take care of the placement in a team and inform you about the training times. You, as a parent, will be responsible for passing on changes that deviate from the specified time. The transport planner will determine whether this request is feasible.
- Our transport planner will inform you when your child can travel with the out-of-school care van to the sports club.
- Our driver, an employee employed by Bink, will take the children with the out-of-school care van from their own location to the location of the training session on time. The driver will not be present during the training.
- During the training, your child will be under the responsibility of the trainers at the sports club.
- Bink is not responsible for loss and/or damage to clothing or other personal belongings of your child while on the sports club premises.
- If your child changes teams or changes training times, please inform the transport planner at least one week in advance via [vervoersoest@binkkinderopvang.nl](mailto:vervoersoest@binkkinderopvang.nl). The transport planner will determine whether this request is feasible.
- If your child is not going to make use of the transport, please let us know in time by sending an email to [vervoersoest@binkkinderopvang.nl](mailto:vervoersoest@binkkinderopvang.nl).
- This arrangement applies to each school year. We will ask you to register your child for the new season again via the online registration form on our website.
